-  [Portfolio website](#)

I'm a full-stack web developer (MERN) with a passion for building modern, accessible, and scalable applications that blend design with functionality.

My core skills include React, Next.js, TailwindCSS, and RESTful APIs, and I also build custom Webflow sites with CMS integrations and automation workflows. Alongside development, I explore interactive experiences with GSAP and Three.js.

WORK EXPERIENCE

Communication Systems Technician (Freelance) Brace NG Com Enterprise	August 2022 - Present
<ul style="list-style-type: none">Set up, operated, and managed high-end communication systems for live events, ensuring seamless communication among production crew members.Coordinated signal routing, device pairing, and troubleshooting during fast-paced, high-pressure scenarios, maintaining clarity and system uptime throughout events.Worked closely with technical directors and production leads to implement communication strategies that enhanced operational efficiency and safety.Gained hands-on experience with professional-grade tech systems, aligning with the precision and reliability expected in communication networks.
